# Wildlife Is All around Us

**Recommended grade level:**

**Project length:**

**Cost:**

**Teacher's responsibility:**

**For more information, contact:**

No matter where we live, wildlife is all around us. We may see robins hunting worms in our backyard or a deer grazing at the edge of a field. "Wildlife Is All around Us" is an introduction to the major groups of wildlife, the animals' basic needs, and where animals can be found. In addition to the overall *Wildlife Detective* manual, you can choose a seasonal manual that helps students become more aware of the animals around them and the signs and clues they leave behind.

## 4-H and Schools: A Great Partnership!

4-H is a youth development program of Penn State Cooperative Extension. It is a nonformal education program for youth between the ages of 8 and 19.

4-H projects are offered to youth through community clubs, project clubs, and special interest groups, as enrichment to school curricula, and in the 4-H Afterschool program. Projects are based on research, and many help to support the Pennsylvania Department of Education Academic Standards.

This publication is available in alternative media on request.

Penn State is committed to affirmative action, equal opportunity, and the diversity of its workforce.
