The fastest-growing segment of the American population is people 65 and older. With the help of this project, youth of all ages can begin to develop healthy relationships with older adults. Generation Celebration aims to help youth overcome negative stereotypes about older people, become more sensitive to the needs of others, gain an accurate perception of what it means to grow older, value the experiences and perceptions of the elder generation, and understand the full cycle of life.

4-H and Schools: A Great Partnership!

4-H is a youth development program of Penn State Cooperative Extension. It is a nonformal education program for youth between the ages of 8 and 19.

4-H projects are offered to youth through community clubs, project clubs, and special interest groups, as enrichment to school curricula, and in the 4-H Afterschool program. Projects are based on research, and many help to support the Pennsylvania Department of Education Academic Standards.

This publication is available in alternative media on request.

Penn State is committed to affirmative action, equal opportunity, and the diversity of its workforce.
