Being responsible for yourself means taking care of yourself and doing your part. In this project, youth are taught how to care for themselves, handle problems, and make good decisions. Basic tips on personal safety, handling emergencies, and setting priorities are also included. Information for parents offers tips on rule making and knowing when a child is ready to stay home alone.

4-H and Schools: A Great Partnership!

4-H is a youth development program of Penn State Cooperative Extension. It is a nonformal education program for youth between the ages of 8 and 19.

4-H projects are offered to youth through community clubs, project clubs, and special interest groups, as enrichment to school curricula, and in the 4-H Afterschool program. Projects are based on research, and many help to support the Pennsylvania Department of Education Academic Standards.

This publication is available in alternative media on request.

Penn State is committed to affirmative action, equal opportunity, and the diversity of its workforce.
