

## How important is forestry in Lawrence County?

Almost sixty percent (17 million acres) of Pennsylvania's 28 million acres is forested. The estimated half a million private forest landowners own about 12 million acres (70 percent) of the forest land. The timber and forest products industry is one of the largest manufacturing sectors in the state, employing over 80,000 workers in 2,500 firms. The value added contribution to the state's economy by the forest sector is over 5 billion dollars annually. For the agricultural production sector and processing sector value added is approximately \$2 billion and \$8 billion respectively. State wide there is over 86 billion board feet of standing timber valued at about \$24 billion. Nationally, Pennsylvania ranks number one in hardwood production and forest-based recreation in Pennsylvania is a large component of tourism, the state's second-largest industry.
