Peppers

Types of Peppers and Products
- Regular: made with bell, pimiento, chili, and jalapeño peppers
- Sweet pickled: made with banana, bell, Hungarian, and pimiento peppers
- Hot pickled: made with chili and jalapeño peppers
- Marinated: normally made with sweet red, yellow, and green peppers
- Pickled pepper relish: normally made with sweet red, yellow, and green peppers

Quality
Select firm peppers free of disease and insect damage. Peppers of any color may be used.

Quantity
An average of 9 pounds is needed per canner load of 9 pints. A bushel weighs 25 pounds and yields 20 to 30 pints—an average of 1 pound per pint.

Freezing Procedures
Bell or Sweet Peppers
PREPARATION. Select crisp, tender, green or bright-red pods. Wash, cut out stems, cut in half, and remove seeds. If desired, cut into ½-inch strips or rings, or chop.

For Longest Shelf-Life
Water-blanch halves for 3 minutes and strips or rings for 2 minutes. Cool promptly, drain, and package, leaving ½ inch of headspace. Seal and freeze. For crisper texture, package raw, leaving no headspace. Seal and freeze.

Hot Peppers
Wash and stem peppers. Package leaving no headspace. Seal and freeze.

Canning Procedures
Handling and Preparation
Select your favorite pepper(s). Caution: If you choose hot peppers, wear plastic gloves while handling them, or wash your hands thoroughly with soap and water before touching your face. Small peppers may be left whole. Wash and quarter large peppers. Remove cores and seeds. Slash two or four slits in each pepper, and place in a hot oven (400°F) or broiler for 6 to 8 minutes until skins blister. Cool peppers in water and slip off skins. Flatten small whole peppers.

CAUTION: If you choose hot peppers, wear plastic gloves while handling them, or wash your hands thoroughly with soap and water before touching your face.

Wash jars. Prepare lids according to the manufacturer’s instructions. Place products into jars. Add liquids according to recipe. Remove air bubbles. Wipe sealing edge of jars with a clean, damp paper towel. Add lids and tighten screw bands. Process jars of nonpickled peppers in a pressure canner or jars of pickled peppers in a boiling water or atmospheric steam canner.

Procedures
To process in a pressure canner, place jar rack, 2 to 3 inches of water, and sealed jars in the canner. Fasten lid and heat canner on high setting. After steam exhausts for 10 minutes, add weighted gauge or close petcock to pressurize the canner. Start timing the process when the desired pressure is reached. Regulate heat to maintain a uniform pressure and process jars for the time given in Table 1.

Nonpickled Peppers
Process nonpickled peppers in a pressure canner. Fill jars loosely with peeled, cored, or flattened sweet or hot peppers. Add ½ teaspoon of salt to each pint, if desired. Add hot water, leaving 1 inch of headspace. Adjust lids and process the product for the time given in Table 1. When processing is complete, remove canner from heat. Air-cool canner until it is fully depressurized. Slowly remove weighted gauge or open petcock. Wait 10 minutes, unfasten, and carefully remove canner lid. Remove jars from canner with a jar lifter and place on towel or rack. Do not retighten screw bands. Air-cool jars for 12 to 24 hours. Remove screw bands and check lid seals. If the center of the lid is indented, wash, dry, label, and store the jar in a clean, cool, dark place. If the lid is unsealed, examine and replace jar if defective, use a new lid, and reprocess as before. Wash screw bands and store separately. Products are best if eaten within a year and are safe as long as lids remain vacuum sealed.
Pickled Hot Peppers

**To Process Pickled Peppers in a Boiling Water Canner**
Preheat canner filled halfway with water to 180°F for hot packs or 140°F for raw packs. Load sealed jars onto the canner rack and lower rack with handles, or load one jar at a time with a jar lifter onto rack in canner. Add water, if needed, to 1 inch above jars and add canner cover. When water boils vigorously, lower heat to maintain a gentle boil and process sealed jars as prescribed in Table 2.

When jars have been processed in boiling water for the recommended time, set canner off heat and remove the canner lid. Wait 5 minutes before removing jars. Remove jars from canner with a jar lifter and place on a towel or rack. Continue air-cooling and store as directed for nonpickled peppers.

**Marinated Peppers**

4 lb firm peppers
1 cup bottled lemon juice
2 cups white vinegar (5%)
1 Tbsp oregano leaves
1 cup olive or salad oil
½ cup onions, chopped
2 cloves garlic, quartered (optional)
2 Tbsp prepared horseradish (optional)
Yields approx. 9 half-pints

PROCEDURE. Select your favorite sweet or hot peppers. Peel peppers as described on page 1. Quarter large peppers. Flatten small peppers. Fill jars, leaving ½ inch of headspace. Combine and heat other ingredients to boiling and simmer for 10 minutes. Remove garlic. Add pickling solution over peppers, leaving ½ inch of headspace. Adjust lids and process jars in a boiling water or atmospheric steam canner as prescribed in Table 2.

**Pickled Sweet Peppers**

7 lb firm bell peppers
3½ cups sugar
3 cups vinegar (5%)
3 cups water
9 cloves garlic
4½ tsp canning or pickling salt
Yields approx. 9 pints

PROCEDURE. Select and wash your favorite sweet peppers, cut into quarters, remove cores and seeds, and cut away any blemishes. Slice peppers into strips. Boil vinegar, water, and sugar for 1 minute. Add peppers and bring to a boil. Place ½ clove of garlic and ¼ teaspoon of salt in each sterile half-pint jar, or double the amounts for pint jars. Add pepper strips and cover with hot vinegar mixture, leaving ½ inch of headspace. Adjust lids and process jars in a boiling water or atmospheric steam canner as prescribed in Table 2.
**Pickled Pepper-Onion Relish**

6 cups onions, finely chopped  
3 cups sweet red peppers, finely chopped  
3 cups green peppers, finely chopped  
1½ cups sugar  
6 cups vinegar (5%), preferably white distilled  
2 Tbsp canning or pickling salt  

Yields approx. 9 half-pints  

**PROCEDURE.** Wash and chop vegetables. Combine all ingredients and boil gently until mixture thickens and volume is reduced by one-half (about 30 minutes). Fill sterile jars with hot relish, leaving ½ inch of headspace, and seal tightly. Store in refrigerator and use within one month. **Caution:** If extended storage is desired, jars must be processed immediately after filling in a boiling water or atmospheric steam canner, as prescribed in Table 2.

**Sweet Pepper Relish**

5 cups ground green bell peppers (about 7 to 8 peppers, or 3 to 4 pounds before grinding)  
5 cups ground red bell peppers (about 7 to 8 peppers, or 3 to 4 pounds before grinding)  
1½ cups ground onion (3 medium yellow onions, 2½ to 3 inches diameter, before grinding)  
2½ cups cider or white distilled vinegar (5%)  
2 cups sugar  
4 teaspoons pickling salt  
4 tsp mustard seed  

Yields approx. 6 pint jars  

**PROCEDURE.** Wash and rinse pint or half-pint canning jars; keep hot until ready to fill. Prepare lids and ring bands according to manufacturer’s directions. Wash peppers well; trim to remove stems and seeds. Peel, core and wash onions. Cut peppers and onions into large pieces. Coarsely grind peppers and onions.*  
Measure 5 cups of each type of ground bell peppers with their juice, and 1½ cups of the ground onion, including juice.

Combine the measured peppers and onions with the remaining ingredients into a large stockpot. Bring the mixture to a boil over high heat. Reduce heat and cook at a low boil for 30 minutes, stirring often to prevent scorching.  
Fill the hot relish into prepared hot pint jars, leaving ½ inch of headspace. If needed, remove air bubbles and readjust headspace to ½ inch. Wipe rims of jars with a dampened clean paper towel. Adjust lids and bands.  
Process in a boiling water or atmospheric steam canner according to the recommendations in Table 1. Let cool, undisturbed, for 12 to 24 hours and check for seals.

*For recipe development, peppers and onions were ground using a stand mixer grinder attachment with the coarse blade. Bell peppers may be all one color or mixed in different proportions as long as 10 cups total are not exceeded. If you prefer a hotter relish, you may include up to 5 cups of Jalapeño peppers, as long as 10 cups total of peppers are not exceeded.

**Pickled Corn-Pepper Relish**

10 cups fresh whole-kernel corn (16 to 20 medium-size ears) or five 12-ounce packages of frozen corn, defrosted  
2½ cups sweet red peppers, diced  
2½ cups sweet green peppers, diced  
2½ cups celery, chopped  
1¼ cups onions, chopped  
1¼ cups sugar  
5 cups vinegar (5%)  
2½ Tbsp canning or pickling salt  
2½ tsp celery seed  
2½ Tbsp dry mustard  
1¼ tsp turmeric  

Yields approx. 9 pints  

**PROCEDURE.** Boil ears of corn for 5 minutes. Dip in cold water. Cut whole kernels from cob or use five 12-ounce packages of frozen corn. If using frozen corn, defrost in the refrigerator overnight or in a microwave. Combine peppers, celery, onions, sugar, vinegar, salt, and celery seed in a saucepan. Bring to
boil and simmer for 5 minutes, stirring occasionally. Mix mustard and turmeric in ½ cup of the simmered mixture. Add this mixture and corn to the hot mixture. Simmer for another 5 minutes. If desired, thicken mixture with flour paste (¼ cup of flour blended in ¼ cup of water) and stir frequently. Fill jars with hot mixture, leaving ½ inch of headspace. Adjust lids and process jars in a boiling water or atmospheric steam canner as prescribed in Table 2.
