**For more information, contact:**

This extensive project book helps youth explore the elements and principles of design, including: cutting and pasting, painting, drawing, sculpting, pottery, papier-mâché, jewelry making, printing, sponge painting, stenciling, screen printing, fiber, batik, quilting, and weaving. Several project ideas and specific directions are included for each method of design.

### 4-H and Schools: A Great Partnership!

4-H is a youth development program of Penn State Cooperative Extension. It is a nonformal education program for youth between the ages of 8 and 19.

4-H projects are offered to youth through community clubs, project clubs, and special interest groups, as enrichment to school curricula, and in the 4-H Afterschool program. Projects are based on research, and many help to support the Pennsylvania Department of Education Academic Standards.

This publication is available in alternative media on request.

Penn State is committed to affirmative action, equal opportunity, and the diversity of its workforce.
