Cost:

Teacher's responsibility:

For more information, contact:

Babysitting is an important job, and babysitters are in demand wherever there are families with young children. Babysitting Basics is a must read for the first-time babysitter. It covers all of the essentials, including how to find and schedule babysitting jobs, get emergency numbers, become familiar with family rules, understand children, deal with problem behavior, have fun with children, and deal with emergencies. Safe sitting tips are also included.

4-H and Schools: A Great Partnership!

4-H is a youth development program of Penn State Cooperative Extension. It is a nonformal education program for youth between the ages of 8 and 19.

4-H projects are offered to youth through community clubs, project clubs, and special interest groups, as enrichment to school curricula, and in the 4-H Afterschool program. Projects are based on research, and many help to support the Pennsylvania Department of Education Academic Standards.

This publication is available in alternative media on request.

Penn State is committed to affirmative action, equal opportunity, and the diversity of its workforce.
