Microwave Magic

Recommended grade level:

Project length:

Cost:

Teacher's responsibility:

For more information, contact:

The Microwave Magic series contains lots of exciting hands-on activities that focus on using the microwave to prepare everything from simple snacks to complete meals. There are four levels in this series, so youth can progress from easy recipes and concepts to advanced techniques, such as adapting recipes for the microwave.

4-H and Schools: A Great Partnership!

4-H is a youth development program of Penn State Cooperative Extension. It is a nonformal education program for youth between the ages of 8 and 19.

4-H projects are offered to youth through community clubs, project clubs, and special interest groups, as enrichment to school curricula, and in the 4-H Afterschool program. Projects are based on research, and many help to support the Pennsylvania Department of Education Academic Standards.

This publication is available in alternative media on request.

Penn State is committed to affirmative action, equal opportunity, and the diversity of its workforce.
