# Workforce Preparation

**Recommended grade level:****Project length:****Cost:****Teacher's responsibility:****For more information, contact:**

Wild over Work focuses on the workforce skills that children ages 5 to 12 will one day need to succeed in the workforce. Through a wide range of activities in four project sections, youth explore Work around Me, Work in My Community, Work around the World, and Work in My Future. Each section's activities assist children in identifying the importance of work in a specific context of their lives and provide practice of the skills they will need to succeed.

## 4-H and Schools: A Great Partnership!

4-H is a youth development program of Penn State Cooperative Extension. It is a nonformal education program for youth between the ages of 8 and 19.

4-H projects are offered to youth through community clubs, project clubs, and special interest groups, as enrichment to school curricula, and in the 4-H Afterschool program. Projects are based on research, and many help to support the Pennsylvania Department of Education Academic Standards.

This publication is available in alternative media on request.

Penn State is committed to affirmative action, equal opportunity, and the diversity of its workforce.
